Leading Computer Installation Firm PCCi obtains Women-Owned Business Enterprise Certification in New York State

Mechanicsburg, PA (December 2009) – Pierson Computing Connection, Inc. was recently certified as a Women-Owned Business Enterprise by the New York State Department of Economic Development, Division of Minority and Women’s Business Development. PCCi is also certified as a Women’s Business Enterprise in Pennsylvania, Delaware, Maryland, North Carolina and Virginia.

“In 2008 the PCCi team laid the groundwork for performing work outside the borders of Pennsylvania, beginning to establish relationships to make this strategic goal a reality. Despite the challenging economy in 2009, PCCi was able to grow our business outside of PA’s borders by more than 8000 percent. The PCCi team’s continued focus on our Strategic Plan has allowed us to thrive, despite the national recession. We are excited to be certified by New York State, allowing us to forge new relationships and meet the needs of clients who desire partnerships with certified companies.”

A Mechanicsburg-based company celebrating 16 years in business, PCCi offers technology installation, data cabling and project management services to large enterprises throughout the east coast. In April of 2009 PCCi was honored by the Pennsylvania Department of Aging as the Small Business Hall of Fame inductee for 2009 as a “Champion for Older Workers”. In July of 2009 PCCi’s website, located at www.piersoncci.com, was named “Best of the Web” in the Technology category by the Central Penn Business Journal.

Pierson Computing Connection, Inc. (PCCi) is a Woman-Owned Business located at 6 North Frederick Street, in downtown Mechanicsburg, Pennsylvania. Their 2,000 square-foot corporate headquarters is positioned in the Harrisburg Regional Technology Corridor Enterprise Zone.
